

ACUITY ELM

EBILLING SOFTWARE

The Acuity ELM eBilling Advantage

- Allocate costs effectively
- Adjust costs at any stage
- Enforce compliance with billing rules
- Track expenses at every level
- Monitor legal spending in real time
- Manage cash flow with forecasting tools

SAVE 10% or more in legal expenses.

Legal departments of all sizes work hard to establish and enforce billing guidelines. But high volume, human error and time constraints make it a tough job for even the most efficient teams. And as companies grow, legal case load can increase as well.

Acuity ELM's eBilling module automates the entire invoice lifecycle — from standing up initial billing rules through budgeting, allocations, reporting and audit. Acuity's flexible design allows you to implement out-of-the-box "best practice" billing guidelines and ultimately customize your rules engine based on the unique needs of your department. As you identify new opportunities to reduce your legal spend with Acuity's analytics toolkit, you can leverage our eBilling module to design and implement complex algorithms to further attenuate your spend.

ACUITY EBILLING PUTS YOU IN CHARGE OF THE INVOICING PROCESS AND DOES THE HEAVY LIFTING FOR YOU.

- **Enforce** your billing guidelines automatically, and determine which violations must be resolved by firms before submission.
- **Monitor legal spend** in real time and understand P&L implications.
- **Allocate matter costs** across multiple business units or related claims and manage accruals.
- Identify **invoice timing violations**, like expenses billed six months after they were incurred.
- Understand which firms are billing the most and which matters are accruing the greatest expense.
- **Reconcile** billing rates with contract terms at a glance.
- **Establish and enforce staffing models** like limiting the number of attorneys attending a deposition.

HOW DOES EBILLING REDUCE LEGAL SPEND?

Sets clear cost limits

Firms and vendors can't ignore your billing rules once they are in the system.

Eliminates mistakes

Duplicate or overlapping invoices are immediately rejected.

Reduces paperwork

A tidier workspace, no misplaced invoices, and fewer dollars spent on paper and printing.

Provides insight

Understand where every dollar is being spent - for a specific matter or across your entire portfolio.

Saves time

Automated invoice system frees up you and your staff for more important things.
